DOCKETED BY

ORIGINAL

I write you to urge you to oppose the elimination of Arizona's Energy Efficiency Standards and any reopening of Arizona's Energy Efficiency Rules. These Standards are working to lower utility bills for me and my neighbors and make Arizona an affordable place to live and work.

Please do the right thing
and bring greater energy efficiency
to Arizona. That is essentially your
job, so as your constituent, I'd
appreciate you doing so. The rest
of the world is taking climate
change and energy efficiency seriously,
so I think Arizona, with our
abundant sunshine and space, should
take advantage of opportunities to
bring clean, efficient, innovative
technology, and the jobs that come with
it, to our sunny state.

I am confident you will do the right thing for Arizona and our state's economy. Please continue to support the Energy Efficiency Standards adopted in 2010.

Thank you,
